Introduction

This supplementary volume to *Spunti e ricerche* contains refereed papers from among those presented at the international conference organised by the Dante Alighieri Society of Victoria together with the Italian Program of La Trobe University on June 25–27, 2003. It is published thanks to the Dante Alighieri Society of Victoria who also gave immense support to the conference and to participants from interstate and overseas. Particular mention should be made of the organizational work carried out by the Society's Vice-President, Dr Adriana Diomedi. Likewise assistance must be acknowledged from the Italian Institute of Culture and its Director, Dr Simonetta Magnani.

Finally, I would particularly like to thank our anonymous referees for giving us their time and expert advice.
